SUPPL

Gentlemen:

EXEMPTION NUMBER 82-3494

To continue the exemption of our securities from Section 12(g) of the Securities Exchange Act of 1934 ("the Act") and in accordance with Rule 12g-3-2(b)(iii) under the Act, we enclose announcements which information we have sent to The Australian Stock Exchange (Perth) Ltd, the only Stock Exchange on which, to our knowledge, our Company's securities are traded, and which was made public by the Exchange with which we filed.

The information is being furnished under Rule 12g-3-2(b)(iii), with the understanding that such information will not be deemed "filed" with the Securities and Exchange Commission or otherwise subject to the liabilities of Section 18 of the Act, and that neither this letter nor the furnishing of such information shall constitute an admission for any purpose that this Company is subject to the Act.

Yours faithfully,

PROCESSED

ASX ANNOUNCEMENT AND MEDIA RELEASE

FAR ANNOUNCES GAS PROJECT IN WESTERN CANADA RIG ON LOCATION

FAR is pleased to announce an agreement has been made with Suncor Energy Inc., of Calgary, Alberta ("Suncor") and others, to explore for gas on Suncor acreage located in the Kakwa area on the flank of the Peace River Arch of Alberta, Canada.

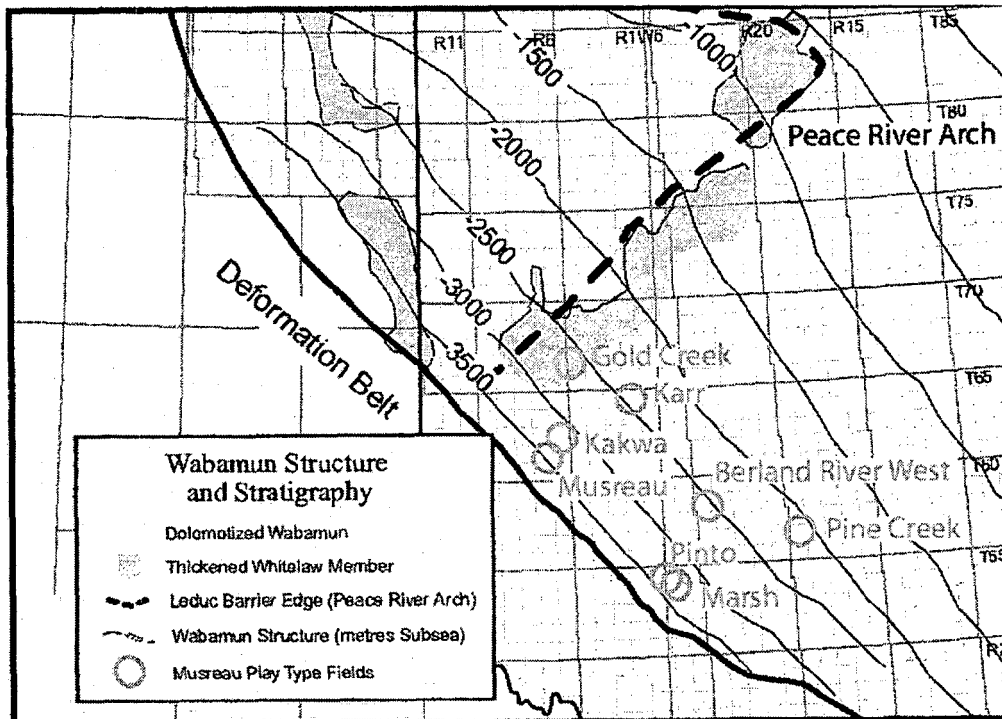

Initial Test Well

Under the terms of the agreement FAR will participate (15 percent) in an initial test of the deep pressured Wabamun fractured carbonate reservoir which is estimated by Suncor to have potential recoverable reserves of 17 BCF. The lease under the first test comprises 600 acres and forms part of a broader Area of Mutual Interest.

The initial test well will be drilled to a planned total depth of 13,000 feet (3,950 metres) and is expected to take approximately 60 days with an estimated dry hole cost of CAD\$4.7 million. A rig has arrived on location and is expected to spud in the next 48 hours. The location is immediately adjacent to a highway and to a pipeline offering good logistics for early production in the event of success.

Whilst technical analysis suggests an excellent chance of encountering the seismically defined Wabamun reservoir, the play is supported by additional secondary targets in the Cretaceous (estimated 2BCF potential) at shallower depths. Analogue fields for the Wabamun play are Berland River (57BCF) and Musreau (16-20BCF). Initial production rates of 15 million cubic feet per day are considered likely for the Wabamun reservoir. Gas prices are similar to those achieved in the broader North American market with payback possible within 18 months.

Larger Secondary Prospect

Participation in the initial test well earns FAR an option to participate in an additional much larger (50 BCF plus), seismically controlled Wabamun prospect lying to the northeast of the initial test site on a lease comprising 800 acres. Several low risk lower potential Cretaceous targets have been identified on both blocks with up to four locations in each section.

Operator

The operator is Calgary based Choice Resources Corp ("Choice") (TSX Venture Exchange: CZE). Further information concerning Choice is available at www.choiceresources.ca

About Suncor Energy Inc.

Suncor Energy Inc. is a growing, integrated publicly traded energy company, strategically focused on developing one of the world's largest petroleum resources, the Canadian Athabasca oil sands. In addition, Suncor explores for, develops and produces natural gas in Western Canada and refines and markets a range of petroleum and petrochemical products under both the Sunoco and Phillips 66 brand. Further information is available at www.Suncor.com

Participants

Pursuant to the agreement working interests in the Kakwa project will be held as follows:

Choice Resources Corp (Operator)	40%
First Australian Resources Limited	15%
Reeder Energy, Dallas, Texas	15%
MBOE Inc, Dallas Texas	10%
Running Fox Resources Corp, Richmond, British Columbia	10%
Bolthouse Capital Corp, Vancouver, British Columbia	10%

The leases are subject to Overriding Royalties retained by Suncor.

Commenting on the announcement, FAR's executive Chairman Michael Evans said:

"Kakwa is an opportunity identified by our Houston office that has the potential to generate significant cash flows for FAR in the very near term. Following meetings between FAR, Reeder and Suncor during the recent NAPE expo in Houston, the Kakwa project is seen as a building block for participation in further opportunities in Canada with Suncor, one of Canada's leading energy providers. Having a rig contracted in this market is an added plus. We look forward to a successful venture and ongoing relationship".
